Description

A tall, well-proportioned, glass dome from the 19th Century, that now sits upon a sympathetic base that was turned from a piece of antique mahogany, ebonised in the traditional manner to match an original pattern. Supporting the base are four small turned and ebonised feet. Because of their fragile nature, we are not willing to package and deliver domes using high street couriers or postal services. However, we are more than happy to dispatch these items throughout England, Wales, and Scotland using trusted private couriers, or of course, you may collect them from our shop in Dorking, Surrey. The measurements below are of the dome itself, however, the base has a diameter of 22.5 cm, and the overall height including the base is 52 cm.
