Description

This late 17th century coffer is in remarkably good condition having never been repaired or altered. It has a 1" thick 3 plank top with original pin hinges. The raised three panel front has a central lozenge to each panel with finely carved mouldings. The central panel is inlaid with the initials EW in white metal (small losses) and the ornate brass escutcheon is original. The coffer has double panel sides and stands on style feet, not reduced as many are. The back and interior are dry unpolished oak. The coffer has developed a dark patina seen in unrestored early oak.
