Antique Revue pocket watch and chain

Price

Sold**Item Reference: SA962559****Date of manufacture: 1930**

Description

Antique Revue pocket watch and chain. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement has been identified as being from Revue although it is signed Tempus 104 which would have been the name it was sold under. The movement is protected by an inner hinged cover which has some scratching where it has been opened in the past. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel and overall the condition is good, just a couple of small "dings" to the hinged case back and general light surface marks. The glass lens is in good condition. The dial has a couple of hairline cracks but they are short and faint, and a small chip to the edge by number 11. Blued steel hands, a subsidiary seconds dial and outer minute track. The watch comes with a single chain, 37cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
