Description

We are offering for sale this very rare lovely condition Aesthetic movement ebonised nursing chair made in late Victorian circa 1870 period. This chair features ornate burl walnut and boxwood inlays and carvings to the back with gilding in the scratch carvings and on the turnings throughout. The chair has turned and fluted side back rails to a lower stretcher with a turned gallery. The chair incorporates low sweeping arms culminating in burl walnut boxwood inlaid front faces. The sprung seat features a serpentine frontage finishing to turned, fluted and gilded front legs. The chair stands on its original 4 solid brass castors with white porcelain wheels. This chair has been recently re-upholstered (approximately 5 years ago) to a high standard in a floral gold chenille material which is in a fantastic clean condition with virtually no wear (from a smoke and pet free home), ideal for any period property. The material could be left as it because of its fantastic used condition or it could be fully upholstered to your taste. We would be able to quote for re-upholstering this chair for you if you enquire. This item is structurally solid, in good order with no loose joints....
