Depth = 14 cm (5.5")

## Description

Hi I have for sale a rare striking double fusee Ting Tang quarter striking lantern clock cycle 1890s English lantern clock made in England in a rare set up with the twin bells and hammers on a massive twin fusee chain driven movement. The Case The case is in solid brass and stands 40cm high x 14cm wide with a depth of 14.5cm it is in very good original condition with a cast bell at the top and scroll work around the face and dolphins across the top the work is of top quality a very nice heavy striking clock with the twin solid strike hammers. The Dial The dial is in good condition with a brass chapter ring with engraved black Roman numerals housed within with a scrolled mask, the clock also retains its original brass handmade ornate hands. The Movement The movement is an eight-day time and quarter strike, which strikes the quarters half and hours on twin bells to the top with a nice crisp sound, the movement has been fully restored with new springs and then serviced and oiled so keeping a great time over the eight days via the original pendulum this work was done around 5 years ago so just re-serviced and running very strong. The movement is a thick-plated brass movement...

Internal Ref: Clive Lantern 2
