Description

Hi I have for sale an 1890s solid brass French crystal regulator mantel clock that is in stunning condition for the age with an original brass case and fully serviced eight-day striking movement run via original Ellicot pendulum with the ultra rare moon-phase dial which marks the 29.5 lunar days by the x2 small stars at the top of each moon. This clock was made in France by E.S Ed. Serin and signed on the back plate. This clock is simply stunning the case shines in the sunlight and is a very large and heavy clock this clock is insured for £8000 The Case The case is in solid very shiny brass very heavy and stands 31cm high x 18cm wide with a depth of 14cm it is in very good original condition very shiny and has been very well looked after over the years, with 8mm thick beveled glass on all four sides, both doors open with ease and all glass is free of chips or marks all panels again are in mint condition. The Dial The dial is in original condition with a working moon phase center and with the bold black Roman numerals, the clock set off with the original black ornate hands. The Movement The movement is an eight-day time and strikes striking the hours and halves on a ...
