Depth = 15 cm (5.9")

## Description

Hi I have for sale an 1870s Charles x French Portico mantle clock made of solid rosewood with gilded ormolu mounts and the most wonderful maple shell and brass inlays. The movement has been fully restored with new springs. The Case The case is in solid rosewood and stands 47cm high x 24.5cm wide with a depth of 14cm it is in very good original condition very shiny looks almost wet and has had a lot of wax over the years very well looked after, with a thick gilded dial surround with flowers/fruit close up the mounts are quite stunning in appearance. The case has no damage at all no worm in mint condition all inlay is intact. The pendulum has flowers and fruit to match the dial surround highlighted with mercury gilding just a stunning piece of art. The Dial The dial is in mint original condition white porcelain with fine black Roman numerals with the original black moon hands. The Movement The movement is an eight-day time and strike, striking the hours and halves on a small sweet bell, the movement was fully restored in January this year so keeps a great time over eight days and still retains the matching ormolu pendulum which is a piece of work in its own right simply ...

Internal Ref: Gary Portico
