Description

Originating from Czech republic this Art Deco vase not only visually looks stunning with it's very distinctive colourway and patterning but is a great size standing just over 25 cm. The glass is extremely thick and therefore the vase itself is deceptively heavy. Also to note it's a very unusual shape, almost triangular and in so offers a very attractive and interesting view at any angle. Condition is excellent, can't find any damage, found two or so tiny air bubbles within the glass. Made In the Czech Republic, the body of the vase is conical in shape, with original vintage etched enamel artwork and we think most likely by Karl Palda. FREE UK mainland delivery
