A beautiful chest of early 20th Century drawers dating from around the early 1900's to 1930. They are presented in a beautifully aged finish with stunning handles. Very French in their design, reminiscent of popular 18th century design. All drawers are very well made with pin dovetail joints to the sides. The drawer internals are very clean and the whole chest is completely solid and free from any wobbles or loose joints. There are some very common shrinkage splits to the sides; due to modern central heating. Aside from the side splits the drawers are in excellent antique condition. Beautiful colour, patina and French lines. This chest will look perfect in almost any room you choose. It's a real keeper! Dimensions: 83.5cm High, 108cm Wide, 51cm Deep (top surface)
