## Description

Here is a beautiful Edwardian (or possibly late Victorian) washbowl with a charming border of English Garden birds flying through the clouds around the rim. A fine pair of Swallows dart alongside two Blue Tits, a Goldfinch, a Robin and a pair of Chaffinches - quite the summer garden collection ! On the underside the bowl fades through white to sky blue, and is unmarked on the base. The bowl is in used condition with the surface wear to be expected of a well loved piece of this age, it is however free from damage and still displays beautifully. Please study the photographs to see the condition, and don't hesitate to get in touch if I can provide any further information or different images. The bowl is 40cm in diameter and stands 12 cm high. I offer free postage to mainland UK, and can help arrange for quotes to ship abroad.
