Date of manufacture: 1890

Dimensions

Height = 40 cm (15.7")

Width = 24 cm (9.4")

Depth = 10 cm (3.9")

Description

A really beautiful example of these very elegant clocks. A marble frame supports a drum-head movement with convex enamelled and arcaded dial. Gilt swags, capitals and finials further enhance and contrast with the marble. Finished with an urn finial to the top. Complete with a sunburst gilt pendulum. The 8 day movement strikes on the half-hour and the hour on a bell. It has just been fully overhauled by our BHI registered staff and carries our usual 12mth full parts and labour guarantee. Regrettably, as per usual, our pictures fail to show the true beauty of this clock. It is much, much brighter in real life. (We are very good at clocks and very bad at photography). A superb clock in every respect. All cards accepted.
