Description

WE Powell fl. 1900 - 1928 'Mallards coming into Roost' W/colour painter and illustrator, particularly of bird subjects. The W/colours are of fine quality and usually heightened with body colour, which gives them a striking appearance. He is thought to have been employed at the Royal Worcester Porcelain factory where he was a decorator specialising in Bird designs. The quality and subject matter of his work have made his paintings very collectible. This particular picture is enhanced by its original Watts frame. Signed W/colour on Paper
