## Description

Gents Zenith wrist watch, 1967. The watch has a 19-jewel stem-winding movement, calibre 2531, which is working nicely. The movement is signed with the Zenith name and the serial number dates it back to 1967. The watch measures 33mm diameter excluding the winding crown and the lugs. The case is stainless steel. There is some surface marking to the lugs, and some scratching to the back where a tool has slipped in the past. Signed Zenith winding crown. The lens is in good condition. The signed dial is in its original finish with original hands, a subsidiary seconds dial and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
