Antique Opal and Diamond Ring

Price

GBP 650

| USD \$877 | EUR 760

Item Reference: SA968253**Date of manufacture: Victorian**

Description

We are in love with this beautiful antique 18ct gold scroll design ring. She is set with three cabochon cut opals interspaced by four twinkling old cut diamonds which elevate the piece just a little bit more. The Opals hold a wonderful play of colours within them, held in the light you can see orange, purples and greens. The scroll design continues along the front of the shank making this ring delight from all angles (the remainder of the band being plain). This antique Gold ring looks fabulous when worn alone but is also perfectly shaped for stacking with your other antique treasures. Condition: Very Good antique condition. Each gemstone is secure within her setting, the shank is all in order, just a wee bit narrower at the rear of the shank, we mention for accuracy, this does not affect the look or feel of the ring at all. She sits comfortably on your hand and is ready to sparkle and shine. Size: UK size J. Marks: Worn MATERIALS: 18ct Gold, Opal, Diamond. Diamond Weight: approx. 0.12 carats (please note the stones were measured within the restrictions of their settings) Weight: 3.74gm
