

SA968565

Large antique Swiss pocket watch

Price

Sold**Item Reference: SA968565****Date of manufacture: 1920**

Description

Large antique Swiss pocket watch. The watch has a nicely jewelled Swiss stem-winding movement which is working nicely. The watch measures 55mm diameter excluding the stem and the loop, so slightly larger than the usual 50mm diameter size. The watch has a good quality nickel case which has a screw-on bezel and case back, a good sign of quality. The case has some light surface marking to the back but not too detrimental. The watch has a glass lens with a deep bevel. The white enamel dial is in nice condition with original blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
