

SA968756

Antique silver Electa pocket watch. 1918

Price

Sold

Item Reference: SA968756

Date of manufacture: 1910

Description

Antique silver Electa pocket watch. 1918 The watch has a Swiss high grade 17-jewel stem-winding movement with Breguet hairspring for enhanced precision, screw-set jewels in gold settings, which is working nicely. Originally there would have been a micro regulation addition to the regulator but this has been removed over the years, this does not affect how the movement works The movement is protected by an inner hinged cover. The watch measures 51mm diameter excluding the winding stem and the loop. The case is silver and has London import marks for 1918 with the importers mark for Arthur George Rendell. The case has a little unevenness to the back and some wear to the engine turned detail. The glass lens is in nice condition. The dial is in nice condition with blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
