

SA972051

Antique silver Waltham pocket watch and chain

Price

Sold**Item Reference: SA972051****Date of manufacture: 1920**

Description

Antique Waltham pocket watch and chain. The watch has a seven jewel stem-winding movement, grade 610, which is working nicely. The movement is fully signed and it has the serial number 27,010,076 which dates it back to around 1929. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the case backs for Birmingham 1903. The difference in movement and case dates tells us that the two probably did not start life together however there is no scar damage or signs that the movement has been changed. The case is in nice condition, just a hint of unevenness to the back of the watch, nothing serious at all. The acrylic lens is in good condition. The signed dial is in beautiful condition and has blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a single silver chain, 33cm long. The chain is hallmarked for 1920. The watch and chain come in a new presentation box.
