Description

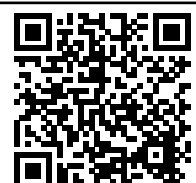

Outstanding Omega Seamaster gents wristwatch. This is an incredible example of a gents classic wristwatch made by the world renowned premier Swiss maker Omega. The watch is the Seamaster with calibre 501 20 jewel automatic movement, one of Omega's most reliable. This is an amazing unrestored example of this iconic Omega. All of the edges are clean and sharp, it has never been polished or restored, the only thing we have done is to service the movement and ultrasonically clean the case and bracelet. It has its original cross hair dial, even the glass is original and near perfect. It also has its original full length beads of rice bracelet with correct number 11 end links. It fits a wrist size of up to 7.75 inches. The movement has just been serviced and comes with a 1 year warranty. As you would expect the watch is fully marked on the dial, movement and case. The watch case measures 34mm in diameter not including the crown. It clearly has been seldom worn and a superb collectors piece, this is the best untouched example we have seen. Overall this watch is in superb original condition and an absolute must for Omega collectors. The watch has been fully serviced ...
