Depth = 4 cm (1.6")

Description

Hi I have for sale a rare English Rococo solid silver miniature carriage clock made in London by William Comyns in 1901. The Case The case is in solid hallmarked silver and stands just 9.5cm high to the top of the handle x 5cm wide with a depth of 4cm it is in perfect condition fully engraved all over with mint front convex glass. The Dial The dial is in mint original condition finished in white porcelain with Roman numerals, the clock also retains its original black/blue steel ornate hands. The Movement The movement is an eight-day time only; the movement has been fully restored with a new spring then serviced and oiled so keeping a great time over the eight days via the jeweled escapement to the top. Key is included. Overall a rare English miniature carriage clock that looks beautiful on display a very rare chance to buy a very original clock. I had trouble with the photos because of its size and deep shine it is much better in the flesh. I will post worldwide.

Internal Ref: Solid Silver Rocco
