Dimensions

Height = 5 cm (2.0")

Width = 3 cm (1.2")

Depth = 1 cm (0.4")

Description

A good example of a Sterling Silver sovereign holder with spring loaded coin mechanism and a fob watch style design. It is good quality and well made and is fully hallmarked for Birmingham, 1901 and the makers Horton & Allday. It is in good condition with clear hallmarks. There are no major damages but it has picked up some dinks and dents over the years and faint surface marks. However the coin mechanism works well as does the opening and closing and it still displays well. It has been gently cleaned and polished and is ready for use. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK delivery £6, rest of the world £25.
