Depth = 8 cm (3.1")

Description

A good example of pair of milk glass decanters, one white and one pale blue, dating from the mid to late 19th century. They have ornate white metal collars with grape and vine decoration and come with matching corked stoppers with the same decoration. They are in very good condition for their age. The mounts are in good condition and there are no cracks or major damages to the glass. The corks are a little worn and there are some small losses in places but nothing detrimental. They have been cleaned and gently polished and are ready for use. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK delivery £15.
