In 1913, Royal Doulton launched a new group of figures, and a HN number was used on all wares. This HN number refers to an artist/designer Harry Nixon, who was in charge of painting the figures of Royal Doulton. The HN numbers were chronological until 1940s, after which time blocks of numbers were assigned to each modeler of the figures. The first figure in the series was "HN1 - Darling", in honor of Queen Mary. Excellent condition. There is no damage - the figurine is in ideal condition. Please carefully regard all photos. 19 cm in height 280 g
