Date of manufacture: 18th Century

Dimensions

Height = 214 cm (84.3")

Width = 48 cm (18.9")

Depth = 23 cm (9.1")

Description

A rare and quite unique musical longcase clock that is 300 yrs old. The clock strikes on the quarters and the hour, playing the Westminster tune. The quarters are struck on a nest of 4 silvered bells, with the hours being struck on a separate bell. The arched brass dial has a silvered chapter ring with engraved black Roman numerals, silvered and engraved centre, and a subsidiary seconds dial. It has a STRIKE/SILENT dial to the arch. The clock is signed "ISAAC NICKALS. WELLS". He is recorded in Loomes "Clockmakers of the World" as working in Wells, Somerset, in 1730. The oak case is nicely polished with a full length door and an arched hood having reeded pillars and brass Doric capitals. There are three original ball and spire finials to the top. The very substantial 3 train movement has just been fully overhauled by our BHI registered staff and carries our usual 12mths full parts and labour guarantee. A quite unique find. All cards accepted.
