Description

A fantastic and compact breakfront sideboard, beautifully made from burr walnut. This was made in England, it dates from around the 1930's period. It is a very useful size and has a very smart design. The quality is superb, with gorgeous burr walnut grain patterns and lots of storage space. There is a cross banded top, original brass handles and it sits on bracket feet. We have recently had this re-polished, the condition is excellent for its age. This delightful small sideboard takes up no more room than a small console table, yet it has plenty of storage, so it's a great space saver.
