Description

A good quality late 19th century mahogany longcase DOMESTIC REGULATOR. The 8-day timepiece movement features original 'deadbeat escapement', 'maintaining power' and is sold in perfect working condition, with key. The plain mahogany case features a glazed front panel door behind which can be seen the highly polished brass weight and the wooden pendulum with large polished brass adjustable bob. The hood has a cast black metal gallery pediment, made of simplified fleur-de-lys. The engraved silvered dial with subsidiary seconds dial has both Roman and Arabic numbering, black metal 'spade' hands and is signed above the six by the maker Emanuel Haer, who was recorded as trading from High Street, Winchester c.1900. (Ref: Brian Loomes, "Watchmakers and Clockmakers of the World - 21st Century Edition" p.355). Dimensions: Height: 74 inches. Width: 17 inches. Depth: 10.5 inches. (188 x 43 x 26 cm) Date: c.1900 Regulator Clocks - The Regulator clock was developed due to the need for an extremely accurate standard timekeeper by which other clocks could be set. Regulators were used in Observatories, large country houses, clock workshops and retailers premises. Refinements to the ...
