Description

A very pretty antique nine-carat gold ring showcasing a carved cameo of a draped classical figure in an orange hardstone, likely sardonyx. The carved plaque is mounted into a richly coloured gold mount within a halo of tiny gleaming seed pearls, with a decorative pierced gallery set on a split-shouldered reeded shank. The ring is in very good antique condition, with just a few very tiny fleabites to the orange stone when seen under the magnification of a strong loupe. Size: H (UK), approx 3.75 (US). The cameo measures approximately 1 x 2cm and the face of the ring around 1.5 x 2.5cm. Weight: 4.4g. FREE INTERNATIONAL SHIPPING! Apologies but we cannot ship to Germany, any orders from Germany will be cancelled and refunded. Please note antique boxes pictured are not included unless specified, your item will come in a new box.
