Description

A very useful pair of pine bedside cupboards dating from the early 20th century. They are most likely continental and have an unusual lift up top above a small shelved cupboard. They stand on small bracket feet and the cupboards have turned wooden knobs. They are good quality and the pine has mellowed to a nice warm colour. They are in good condition for their age and are strong and sturdy. There are minor signs of age and use, a few small marks and knocks here and there but nothing detrimental and overall they display well. They have been cleaned and gently polished and are ready for use. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Nationwide delivery available through our network of reliable couriers.
