Description

Antique silver Omega full hunter pocket watch. The watch has a stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 4,297,152 which dates it back to around 1914. The movement is protected by an inner hinged cover which has the Omega name and images of medals won in Paris in 1900. The watch measures 50mm diameter excluding the winding stem and the loop. The case is 800 silver and there are hallmarks inside the three covers, and the early Omega logo inside the back cover. The case is in good condition, just three minor knocks to the side, and the odd small patch of unevenness, nothing too serious at all. Vacant cartouche to the front. The winding crown pushes in to open the front cover. Inside there is a glass lens which is in good condition. The signed dial has a couple of hairline cracks but they are very faint. The watch comes in a new presentation box.
