Description

Here is a lovely cut glass dressing table pot of good size, with a silver repousse lid bearing the hallmark for Birmingham and the year 1897. It is also stamped CM for Charles May and Sons. The glass is bright and sharp and the silver lid is also in good condition with just the light surface wear of an item of this age. Please see the photographs, and don't hesitate to get in touch if I can provide any further information. The Jar stands 7cm tall and is 7cm across its widest point. I offer free delivery to mainland UK, and am very happy to help with quotes to ship abroad.
