Dimensions

Height = 22 cm (8.7")

Width = 38 cm (15.0")

Depth = 23 cm (9.1")

Description

A superb quality early 20th Century Barograph. The barograph is cased in mahogany with a stepped base and bevelled glass. It has a drawer for storing new and used charts and it stands on four small bracket feet. The clockwork eight-day movement is housed in the drum, fitted with a seven day chart which covers one rotation of the drum. The aneroid barometer mechanism has 7 stacked vacuum capsules and utilises a gate suspension for improved sensitivity. The metal pen nib is on the end of a long arm which moves to record the pressure as the drum rotates. It also has an additional thermometer within the case. It comes with a large number of recording charts and it has a small glass ink bottle in a brass holder. New ink and charts are both readily available to buy online. The clockwork mechanism is in good working order and the drum rotates as it should. I have not referenced the pressure readings for accuracy but I have no reason to believe it shouldn't be in working order. It will however of course need calibrating and setting up to the correct pressure when it arrives with you (any queries please ask). It is in excellent condition for its age and has clearly been very w...
