Description

Unusual collection of three 19th century Russian icons and an Angel which have been mounted on a wooden panel, c1890. The 3 bronze/brass icons depict traditional religious scenes - the Virgin Mary with evangelists and various Saints, including our lady of Vladimir and Smolensk. It is unusual to see an Angel displayed with icons but they look to be of a similar age and display well together. The wood has lovely colour/patina and is undoubtedly very old. Overall it has a lovely folk art look and it would display really well. Please refer to the detailed photographs and feel free to contact me if you would like to view the item or have any questions. Price includes FREE UK delivery, please contact me regarding international shipping. Size: 17.5cm tall x 14cm wide x 3cm deep, weight 0.35kg.
