Description

Original dial Omega Constellation Chronometer gents wristwatch. The watch is the Constellation automatic day date with chronometer grade calibre 751 movement with 24 jewels, adjusted to five positions and temperature - as you can see it is in fabulous condition. This was the last of the great inhouse movements made by Omega. The starburst dial with day and date is original condition with some evidence of surface patina and aging spots it has not been restored or retouched in any way It has the Constellation observatory symbol embelished on the back of the case which is bright and crisp and also the Omega symbol on the crown. The movement has just been serviced and comes with a 1 year warranty. The case has been professionally polished and ultrasonically cleaned . As you would expect the watch is fully marked on the dial, movement and case. It comes complete with a new premium quality black leather strap . The watch case is slightly oversize and measures 35mm in diameter not including the crown. Its not a mint condition museum quality piece but a good value honest daily wearer. The watch has been fully serviced by and is guaranteed to be a genuine Omega in all re...
