

SA982319

1920s Electa full hunter pocket watch

Price

Sold**Item Reference: SA982319****Date of manufacture: 1920**

Description

1920s Electa full hunter pocket watch. The watch has a high grade 17 jewel stem-winding Electa movement which is working nicely. This is a high grade movement with screw-set jewels, micro regulator and Breguet hairspring. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding crown and the loop. The case is the gold plated Star model made by the Dennison Watch Case Company. The case has an engine turned front and back with a vacant cartouche to the front. The case has minor marking but overall it is in nice condition. The winding crown pushes in to open the front cover. Inside there is an acrylic lens which is nice condition with only very minor marking, all very acceptable. The white enamel dial has a small chip to the edge but not overly noticeable, otherwise it is in nice condition with original blued steel hands, a subsidiary seconds dial and outer minute markers. The watch will be sent in a new presentation box.
