Miniature Georgian book - Simple Arithmetic

Price

Sold**Item Reference: SA982368****Date of manufacture: Georgian**

Description

A lovely survivor from 1801. A super miniature book "A Compendium of Arithmetic" I understand that the complete series numbers 10. Not sure if this is the original covering, but if not it has been done professionally. However, all the inside pages are as they should be and in very good order. Such interesting information inside particularly the page which mentions Scots dry measures. 10 x 6 x 0.8 cm
