Description

Antique silver Waltham Traveler pocket watch, 1907. The watch has a seven jewel stem-winding movement, Traveler grade, which is working nicely. The movement is fully signed and it has the serial number 12638563 which dates it back to 1903. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the two case backs for Birmingham 1907 with a maker's mark for Aaron Dennison. The Dennison Watch Case Company manufactured most of the cases for Waltham UK. The case has light wear to the engine turned back and a mild bruise but overall is in nice condition for a 1907 piece. The glass lens is in nice condition with only the odd minor mark. The signed dial is in nice condition. The watch has its original gold hands. The watch comes in a new presentation box.
