Description

1930s Swiss pocket watch and chain. The watch has a seven jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and it is in lovely condition, as is the glass lens. The dial is in very nice condition too with blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single chain, 30cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
