Description

Antique Omega pocket watch. This watch has an Omega stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the New York case maker Fahys. Joseph Fahys & Co was founded in 1857 by Joseph Fahys, a French emigrant. Fahys supplied Omega with cases at the beginning of the 20th Century. The case has the odd minor mark but overall is in lovely condition. The lens is in lovely condition. The dial has a hairline crack running through 10 and 11 but otherwise is in good condition. The watch comes in a new presentation box.
