Description

A good example of a solid Sterling Silver pepper shaker. It is a stylish and good quality piece on a round foot with swirling repousse decoration and a small finial on top. It weighs approximately 40g although the base may possibly be weighted. It is hallmarked for Birmingham, 1905 and the makers Cornelius Desormeaux Saunders & James Francis Hollings. It is in good condition for its age. There are some faint surface marks and minor dinks but nothing detrimental. There are a few dents around the rim of the top but it still fits well. It has been gently cleaned and polished and is ready for use. The best description comes from the photos so please look at them all carefully and if you have any questions just ask.
