Gents 1950s Accurist wristwatch

Price

Sold**Item Reference: SA987604****Date of manufacture: 1950**

Description

Gents 1950s Accurist wristwatch. The watch has a Swiss 17-jewel hand-winding movement which is working nicely. The watch measures 33mm diameter excluding the winding crown and the shapely lugs. The case is gold plated. The front of the case is in good condition, there is some wear to the plate on the back of the watch. The watch has a stainless steel screw-on case back which states that the watch is waterproof however, as with any vintage watch, it should be kept away from water and moisture. The lens is in lovely condition (some reflection showing in the photo). The textured dial is in beautiful original condition with original hands, centre seconds with red pointer end and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
