Description

The unusual combination of a soft pink red large medallion, sitting on a brick red field with the same pink red used in the corners makes a magical effect. The medallion seems to disappear and the ton-sur-ton colours emphasise the electric accents of light blue and yellow green. A really classy and beautiful, rare Heriz weaving. Finely woven and although showing heavy wearing places, still has a lot to contribute to your home and can last many more years, especially with the use of an underlay which I can supply. 9'3" x 12'3"
