Description

This is probably one of our favourite pieces of glass we've listed recently, it really is a gem and very impactful visually. The sheer size and detailing really does offer something different in this bowl. Originating from the Czech republic this Art Deco centrepiece has two stylised handles and is in a very distinctive amber and deep plum red colourway with embossed foliate with a combination of clear and frosted glass. It's also a great size too, 38cm wide! . The glass is extremely thick and therefore the bowl itself is deceptively heavy. Offered in excellent condition with no damage to note. There are one or two air bubbles in the glass from when it was manufactured other than that is perfect. This centerpiece definitely won't disappoint, we defy the new owner not to fall in love it!
