Description

Swiss silver full hunter pocket watch, 1939. The watch has a good quality Swiss 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 51mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks for Birmingham 1939 inside all three covers, along with a case maker's mark for Aaron Dennison, a prolific Birmingham based case manufacturer and supplier to various watch makers. The case is in good condition, just a little unevenness to the back of the watch but not too detrimental. The winding crown pushes in to release the front cover. Inside, there is a glass lens which is in lovely condition. The dial has a couple of faint hairlines. Blue steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
