Description

A superb antique Edwardian kidney shaped desk in mahogany. This was made in England, it dates from around 1900-1910. The quality is outstanding, this sits on beautifully tapered legs terminating in spade end feet. The kidney shaped top has lovely carving around the edges and has a top quality inset leather writing surface. This is nicely finished on all sides, so it can be used as a free standing item. The drawers run smoothly, and have high quality Hobbs locks with a locking key. We have recently had this re-polished, the condition is excellent for its age.
