Item Reference: SA989529**Date of manufacture: Victorian**

Dimensions

Height = 2.9 cm (1.1")

Width = 1.4 cm (0.6")

Depth = 1 cm (0.4")

Description

A beautiful pair of earrings from the Victorian period, c1870s. The earrings are made from 15ct gold and are a hollow construction, making them very light and easy to wear. The central ball hangs freely within a scalloped edged frame. The balls are plain to the back and textured to the front. At the centre front is a black enamel star pattern. There is a little enamel loss, though this does not detract from the overall effect of the earrings. Such a pretty antique pair of earrings. Details: Materials - 15ct Gold (tested), Enamel Age - Late Victorian Size - The central balls measure approx 9.5mm in diameter. The frame is approx 13.5mm in diameter. The earrings are 29mm long including the hooks. Condition - Very good. One gold ball has evidence of an old repair; please see the final picture. The balls are good rounds and do not exhibit any dents. Enamel loss as mentioned above. Weight - 2.42g the pair

Internal Ref: 5056
