Description

Early 20th Century Anderson of Bristol Juvenile Fairground Figure A rare Anderson of Bristol juvenile fairground/carousel cockerel, c.1900 - 1910. This hand carved example is from a dobby carousel ride and likely carved by Savage, Anderson, Spooner and Lines Bros. Made from section wood with its original metal pole support still in place. Hand painted detail and glass eye, these original English examples are now hard to find, and this highly decorative example is a real stunner. Origin: England Material: Wood Age: Early 20th Century Size: Height 30" x Width 35" x Depth 8" Weight: 22kg Condition Report An old, aged item that has stood the test of time, it's been used for many years, and this is shown in the wear and tear. We feel this item has been over painted on numerous occasions as you would example from original fairground items of this nature. With aged repairs and restoration across the neck section as we have tried to show. Its exceedingly difficult to photograph all the areas of these pieces, therefore we strongly suggest reviewing all the photos provided as part of this advert and propose questions where sections are unclear to avoid disappointment upon...
