Description

Antique Waltham pocket watch, 1918. The watch has a seven jewel stem-winding movement, grade 610, which is working nicely. The movement is fully signed and it has the serial number 21,913,297 which dates it back to 1918. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold plated Star model from the Dennison Watch Case Company... Dennisons made most of the cases for Waltham UK. The case is in good condition with just general light surface marks, nothing serious at all. The glass lens is in lovely condition. The dial is signed with the name of the original retailer of the watch, Northern Goldsmiths Co, Newcastle, and unusually, it is also signed at the bottom, Waltham USA. The dial is in beautiful condition with original blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
