Depth = 8 cm (3.1")

Description

I have for sale an 1860s French carriage clock, the case having been fully restored and the movement fully restored so keeping good time via the original jewelled escapement. The clock comes with a key. This clock was made in France around the 1860s and is a very heavy clock with a thick plated movement large heavy case with a matching thick handle and rare mint green chapter ring with the Roman numerals I think you will agree it stands out in a crowd as a simply beautiful carriage clock. The Case The case is in solid brass and stands 17cm high x 9cm wide with a depth of 8cm it is in perfect condition with thick green-tinted bevelled sides/front/back door and top viewing glass. The case is in original condition and very shiny so hard to photograph they do not do the clock justice at all and retain the original base plate. The Dial The dial is in original condition in white with the rare green/mint chapter ring and the Roman numerals and retains its original black very fine moon hands again in original condition and the dial is sat on a false plate so an early heavy old clock. The Movement The movement is an eight day time only, the movement has been fully restored and...
