Description

Good basically 18th century George 3rd mahogany tall, slim cabinet. Four panelled doors with original brass reed moulded decoration. Both doors with working brass locks, 1 lock is original, 1 is an old replacement. Shaped cornice and standing on shaped bracket feet. The inside both top and bottom has two fully adjustable shelves as can be seen in the photos. Nice panelled back. The piece is a lovely colour with original patination and a waxed finish. There is a slight crack to the bottom left door panel and it requires a small repair to one of the back feet which will be included in the price. I can't quite put my finger on it but I suspect this has been adapted in the 19th century. If it has it has been done very well. Very hard to find pieces of early furniture as narrow as this, very useful. SIZE; 32" wide by 11 1/2" deep by 66 1/2" high. CIRCA; 1770 - 1780 (basically)
