

SA995131

Silver & Agate bookmark - Glasgow marks

Price

Sold**Item Reference: SA995131****Date of manufacture: 1920**

Description

A more unusual silver bookmark. This has a much longer blade than usual and a most interesting handle - agate? It is in great condition, the blade is well attached but there is a slight movement probably done in construction, but it is not damaged. The silver end of the handle is not quite straight. W H Collins & Co Glasgow 1929. L 11 cm
