Heavy Brass Ships Master Clock Mercer 8 Day MOD Pattern Marine

Price

Sold**Item Reference: SA996898****Date of manufacture: 1940**

Description

Very heavy brass MOD pattern 8 day dashboard ships master clock, circa 1940s A ship's master clock used for maintaining ship's time (not for navigation) during voyages. It would have been linked to clocks around the ship so that changing time zones required the adjustment once only, the new time being propagated to the electric impulse driven slave dials. The original painted dial marked 'MERCER ST ALBANS ENGLAND' Thick glass in heavy cast brass bezel. The bezel mounted with a hack mechanism stop / start setting function screw, F-S screw, nurlled stainless steel push and turn hand setting and wind knobs. The metal back case with labels; MOD. RECORD CLOCK.MASTER REGULATING Diameter of the bezel 5,7/8" ir 15cm Weight 2398 grams. In very good condition with no damage or repair. The electric impulse mechanism is not present. Winds fully and runs well keeping good mechanical time over eight days. A rare and unusual clock.
